About Us

M/S Ankita Enterprise is an ISO 9001:2015 certified company, accredited by QACS International, proudly recognized for its excellence in manufacturing and supplying high-quality engineering components. With over 30 years of industry experience, we have built a solid reputation of reliability, precision, and competitive pricing. Our product range includes components made from Brass, Mild Steel (M.S.), Stainless Steel (S.S.), Copper, and other precision-engineered materials. We specialize in custom manufacturing, producing components based on client-provided drawings and technical specifications to ensure tailored solutions.

In addition to engineering components, we also manufacture a wide array of battery accessories including :

connectors

sockets

fasteners

sheet metal components

Our modern production facility, located in Howrah, West Bengal is equipped with advanced infrastructure, including in-house lead coating testing equipment and insulation systems, enabling us to maintain the highest quality standards. This ensures we consistently deliver products that meet stringent quality standards. M/S. Ankita Enterprise is particularly known for its expertise in producing high quality brass inserts and aims to develop long-term, mutually beneficial partnerships with all our clients.

Our Mission

- To be a trusted partner in our clients' growth by delivering custom-made solutions with uncompromising quality.
- To uphold transparency, accountability, and mutual respect in every business relationship.
- To nurture a workplace that values skill, dedication, and continuous learning.
- To build a legacy of excellence rooted in 30+ years of experience, serving both emerging and established industries.

Our Vision

- To develop an ecosystem where technology, tradition, and talent converge to deliver lasting value across generations.
- To be recognized not just for what we make, but how reliably and responsibly we make it.
- To grow as a future-ready enterprise that adapts with purpose and leads with integrity.
